## **ADVANCE SPECIAL NEEDS PARKING REGISTRATION INFORMATION**

**BRISTOL, Tenn. (Wednesday, September 24, 2008)** – For the third straight year, special needs guests with state-issued placards may improve their parking places when they apply in advance for a Bristol Motor Speedway-issued parking permit.

All state-issued placards will be required to enter the Speedway property at the Dragway Entrance from Hwy. 394. However, those who apply in advance may enter at the South Entrance and park behind the back straightaway, provided their seats are on that side of the Speedway, or enter at the Dragway and park closer to the grandstands than guests with state-issued placards alone.

Anyone requesting the BMS-issued permits for disabled and special needs guests should send photo copies of his or her state-issued permit and the supporting documentation in advance, along with an application form, so that the Events Department can send advance BMS passes for appropriate parking lots. The documentation required (registration card, receipt, state-recognized disabilities ID card, driver's license, or original approved application forms) is the same reviewed by law enforcement officials at the entrances to lots.

If a guest's state does not issue supporting documentation with a permit, the guest should use a copy of the same documentation used to obtain the original permit.

Individuals with temporary disabilities should submit medical documentation with an application to receive the BMS-issued permit.

Law enforcement officials will check the permits at the South and Dragway Entrances to ensure that the name on the BMS-issued permit matches a photo ID of the occupant of the vehicle using the permit. Transferring a BMS-issued permit to another person should be considered the same violation of Tennessee law as fraudulently using a state-issued placard, and anyone doing so may face the same penalties.

After applications have been received, notification will be sent to the applicant confirming or denying the request. Passes will be mailed approximately one month before the race.

Please note that these permit requests do not apply to reserved seat wheelchair guests. The parking for these guests will not change in 2009. For wheelchair seating and parking questions, please contact Becky Fulwider at 423-989-6931.

For all other handicap parking questions, contact Alice Dawson at [alice@bristolmotorspeedway.com](mailto:alice@bristolmotorspeedway.com).

If you applied for parking in 2008, you must apply again for 2009 parking.
