

CHARLOTTE/STATESVILLE, NC
TRAVEL DIRECTIONS TO/FROM FREE PARKING AT BMS
CHARLOTTE/STATESVILLE, NORTH CAROLINA

TO BMS

From Charlotte or Statesville, follow Interstate 77 north to Wythe County, Virginia, and exit onto southbound Interstate 81. At Virginia Exit 17 in Abingdon, get off and turn left onto State Route 75 towards South Holston Dam (you will not go to the dam, but you will pass close by on your way to BMS). Follow the TO BMS signs along the following route, as shown on Diagram D2:

- a. Going south on State Route 75, you will cross into Tennessee and the road name will change automatically to Tennessee State Route 44. At the intersection with US 421 on the west side of Holston Mountain, turn right onto northbound US 421 towards Bristol.
- b. At the first intersection with Tennessee State Route 435, continue straight.
- c. At the next intersection with Tennessee State Route 44, continue straight.
- d. After passing the State Route 44 intersection, you will go up a hill; get in the left lane.
- e. At the traffic signal about a mile beyond, turn left onto Highway 394.
- f. Go past the Weaver Pike (State Route 358) interchange. Go past the Vance Tank Road interchange.
- g. Just past the Vance Tank Road interchange, get in the left lane. To go to Whitetop Creek Park, turn left at the next intersection, which is the Copperhead Entrance, onto southbound Sportsway Drive. Go south on Sportsway Drive about 2,000 feet and Whitetop Creek Park is at the end of the road. To go to Speedway Parking, go past the Copperhead Entrance, past the Dragway Entrance, and turn left onto White Top Road. Speedway Parking is the first driveway to the left.

TO CHARLOTTE/STATESVILLE

Diagram D12 shows part of the route back to Charlotte and Statesville, which is partially the reverse of the route that you took coming to BMS. The White Top Route will get Speedway Parking patrons back to Highway 394. From Speedway Parking, turn left onto eastbound White Top Road along the White Top Route. Go east on White Top Road, following the TO 81 signs, and turn left onto eastbound Vance Tank Road. At the STOP sign at Broyles Lane, do not turn onto Broyles Lane; keep going straight on Vance Tank Road. After passing a railroad signal on the right, turn left to go up the concrete ramp of Sweet Knobs Trail to its eastern intersection of Highway 394. You must turn right onto eastbound Highway 394 in the right lane.

From Whitetop Creek Park, go north on Sportsway Drive and turn right onto eastbound Highway 394, get in the right lane, and go over the bridge at the Vance Tank Road interchange.

From either parking lot, the next Highway 394 interchange is at Tennessee State Route 358 (Weaver Pike); once you go over that bridge, get in the right lane if you have not

already done so. At the traffic signal with US 421, turn right onto southbound US 421 (a left turn will also get you to Interstate 81, but you will also have to go past the heavier-traveled Exit 7 area). On southbound US 421, go past the first Tennessee State Route 44 intersection (that leads to Bluff City) and go to the point where the four-lane roadway reduces to two lanes. Just past that point, Tennessee State Route 44 intersects again, with a left turn towards Abingdon, Virginia; take that left turn. Tennessee State Route 44 will automatically turn into Virginia State Route 75 upon crossing the state line. At the Exit 17 interchange with Interstate 81, get on northbound Interstate 81 and thence to southbound Interstate 77 in Wythe County, Virginia.
